

It's about: You, Safety, Time, Affordability.

It's About Jobs.

Economists report that **for every one dollar we spend on transportation it generates four dollars in economic benefit.**

What does that mean for us here locally?
Penny sales tax would add 5,024 more jobs annually for our County. If we do nothing, we will lose 10,605 jobs annually.

This referendum will connect residents to hundreds of thousands of more jobs, reinforcing the strength of our economy and the breadth of opportunity available.
